Opening Statement

“A School for Professionals.”

What is D School?

D School, an initiative of **SIMS Healthcare Pvt. Ltd.**, is committed to democratizing opportunities for healthcare professionals. We focus on transforming qualified individuals into competent, job-ready experts through structured, skill-based training, workshops, and specialized programs designed for global career readiness.

Our Mission

“Transforming Qualified Healthcare Professionals into Competent Experts.”

Our Vision

Our vision is to bridge the critical skill gap in the healthcare sector by equipping professionals with practical expertise and global exposure. We are dedicated to creating meaningful career pathways and placement opportunities, enabling every individual we train to contribute effectively to the healthcare industry worldwide.

2. About Us

Why D School?

The healthcare industry is evolving at an unprecedented pace, with an increasing demand for professionals who possess modern skills and global competencies. **D School** was founded to address this need—empowering healthcare professionals with the knowledge, confidence, and capabilities required to excel in a competitive, global environment.

Who We Are

D School is driven by a dynamic team of healthcare and education professionals with decades of combined experience in clinical practice, training, and academic excellence. Our leadership is deeply committed to bridging the gap between traditional healthcare education and real-world industry demands, ensuring that every learner is equipped for success.

Supporting this vision is our distinguished advisory panel, comprising renowned industry leaders, senior academicians, and healthcare experts. Their strategic guidance enables us to design innovative, industry-aligned programs that meet international standards and open doors to global career opportunities.

At **D School**, we seamlessly integrate knowledge, experience, and innovation to transform talent into a future-ready healthcare workforce.

Our Learning & Development Offerings

At **D School**, we are dedicated to empowering healthcare professionals with the skills, knowledge, and competencies required to excel in today's dynamic and evolving healthcare landscape. Our programs are thoughtfully designed to enhance leadership, management capabilities, and technical expertise—ensuring participants are well-prepared for real-world challenges and global opportunities.

All our programs are delivered in association with the **Administrative Staff College of India (ASCI)**, a premier institution known for its excellence in professional education and capacity building. This collaboration ensures that our curriculum is industry-aligned, globally relevant, and focused on practical impact.

Through a blend of expert-led sessions, interactive learning, and real-world applications, we provide a transformative learning experience that supports both professional growth and career advancement.

Webinars

Join our interactive online sessions led by experienced industry experts. These webinars are designed to deliver practical insights, real-world case studies, and actionable strategies on the latest trends in healthcare.

Carefully curated to fit into the schedules of busy professionals, our webinars offer a flexible and engaging learning experience—enabling you to stay updated, enhance your knowledge, and gain valuable perspectives without disrupting your daily commitments.

Workshops

At **D School**, our workshops are designed to deliver focused, practical, and impactful learning experiences for healthcare professionals. Covering a range of domains—from leadership and clinical excellence to finance and emerging healthcare trends—our workshops are tailored to address real-world challenges and industry needs.

Led by experienced experts, each workshop combines interactive sessions, case-based learning, and hands-on activities to ensure participants gain actionable insights and skills that can be immediately applied in their professional roles.

Nursing Leadership Program LION (Upcoming in June)

Our **inaugural Nursing Leadership cohort** was an outstanding success, bringing together renowned speakers and highly engaged nursing leaders. The program delivered a powerful and enriching learning experience, built around real-world hospital challenges and supported by evidence-based strategies. Participants gained actionable insights, practical tools, and the confidence to drive meaningful impact within their organizations.

Designed exclusively for nursing leaders, this program equips professionals with the essential skills required to meet evolving industry demands. It enables participants to lead effectively, communicate with clarity, and create lasting impact in today's dynamic healthcare environment.

Our **intensive 3-day curriculum** is thoughtfully curate to cover key domains including **Leadership & Management, The Heart of Nursing, Medico-Legal Competence, Safe Culture of Care, and Digital Health**. The program is further enriched with globally relevant, scenario-based learning to ensure strong practical application and real-world readiness.

Our **upcoming cohort is scheduled for June**, and we invite you to be a part of this transformative learning experience.

Take the next step in your professional journey—register your interest today to secure your place.

Management Development Program – Digital Health (Upcoming)

Digital Health Revolution (DHR) – A Transformative Journey

The **Digital Health Program** is designed to address the rapidly evolving role of technology in healthcare. As a comprehensive management development initiative, it equips healthcare professionals with the knowledge and skills required to leverage digital tools, enable data-driven decision-making, and drive innovation and efficiency in patient care.

The **Digital Health Revolution (DHR) 1.0** marked a significant milestone in empowering professionals to embrace the future of healthcare. The program brought together dynamic

leaders, industry experts, and forward-thinking participants to explore the evolving digital landscape. Through expert-led sessions and practical insights, participants developed a deeper understanding of how technology is transforming patient care and healthcare systems.

Building on this success, we are excited to present **Digital Health Revolution (DHR) 2.0**—returning with renewed energy, an enhanced curriculum, and a more impactful learning experience.

DHR 2.0 is a comprehensive 3-month online program, culminating in an exclusive 3-day immersion at the ASCI campus. This blended format combines the flexibility of online learning with the value of in-person engagement, ensuring strong practical application in real-world scenarios.

Designed for healthcare professionals aspiring to lead in the digital era, the program offers advanced insights, practical frameworks, and global perspectives on digital health transformation.

Join us and be a part of the next wave of healthcare innovation.

DALES Program

The **DALES Program** is a structured development initiative designed to enhance healthcare professionals' capabilities in delivering high-quality patient care and fostering effective team collaboration.

Program Structure:

- **Duration:** 6 months
- **Format:** 1 day of learning per month
- **Focus Areas:** Patient care standards and team collaboration

This program is thoughtfully designed to provide continuous, practical learning while allowing participants to balance their professional responsibilities. Through focused sessions and interactive engagement, participants will strengthen their ability to maintain high standards of care and work efficiently within multidisciplinary teams.

SOS Program – Soft Skills for Outstanding Services

The **SOS Program** is a comprehensive soft skills development initiative designed specifically for nurses, focusing on enhancing interpersonal effectiveness and delivering outstanding patient-centered care.

Program Structure:

- **Duration:** 3 months
- **Format:** Weekly sessions (full-day training)

Key Focus Areas:

- Communication Skills
- Emotional Intelligence
- Conflict Resolution

This program is designed to strengthen essential soft skills that are critical in today's healthcare environment. Through interactive sessions, practical exercises, and real-world scenarios, participants will develop the confidence and professionalism required to communicate effectively, manage emotions, and handle challenging situations with ease.

Our most recent SOS Program, conducted in collaboration with Basavatarakam, was a great success. The program witnessed active participation and delivered impactful learning outcomes, with participants enhancing their communication, emotional intelligence, and patient-handling skills.

Nurse 360: Nursing finishing school program

Comprehensive Development Program for Fresher Nurses

This **3-month comprehensive program** is specially designed for fresher nurses to build a strong foundation in clinical practice and professional readiness.

Program Highlights:

- OSCE-based assessments for structured clinical evaluation
- Hands-on training in essential clinical skills
- Professional etiquette and workplace readiness
- Career guidance and development support

The program focuses on bridging the gap between academic learning and real-world clinical practice, ensuring that participants are confident, competent, and fully prepared to begin their professional journey in healthcare.

LANG PROGRAM: engish language training for nurses

Medical English Proficiency Program (Online)

This **online program** is designed to enhance medical English proficiency for healthcare professionals seeking career advancement in global healthcare environments.

Program Features:

- Structured online learning modules
- Comprehensive assessments to evaluate proficiency
- Interview preparation and guidance
- Focus on clinical communication and documentation

The program equips participants with the language skills and confidence required to communicate effectively in professional healthcare settings, enabling them to excel in interviews and pursue international career opportunities.

LANTERN – Nightingale Champion Program

The **Lantern – Nightingale Champion Program** is a one-day workshop designed to empower and recognize nursing leaders who are committed to excellence in healthcare.

Open to all nursing leaders, this program focuses on advancing leadership capabilities while celebrating the spirit and legacy of Florence Nightingale. It aims to strengthen the role of nurses as change-makers in modern healthcare.

Program Highlights:

- Leadership advancement and capacity building
- Nightingale-inspired training and values
- Empowerment of nursing professionals
- Recognition of excellence in nursing leadership

Through this engaging and impactful workshop, participants will gain inspiration, practical insights, and the confidence to lead with purpose and compassion
